PROFILE

Passionate Backend Developer with a strong foundation in JavaScript and modern web technologies. Hands-on experience in developing responsive websites using HTML5, CSS3, JavaScript, and Tailwind CSS. Familiar with React.js, Node.js, Express.js, MongoDB, PostgreSQL, Git, and GitHub. Eager to build scalable backend applications, develop RESTful APIs, and continuously expand my skills through real-world projects and continuous learning.

PROJECT

Library Management System

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Git, GitHub

- Developed a full-stack Library Management System to automate book inventory, issue/return tracking, and user record management.
- Implemented CRUD operations for books and users with a responsive React-based interface.
- Built secure RESTful APIs using Node.js and Express.js for efficient data handling.
- Integrated MongoDB for database management and optimized data retrieval.
- Used Tailwind CSS to create a modern, responsive, and user-friendly interface.

Responsive Restaurant Website

Technologies: HTML5, CSS3, JavaScript, Tailwind CSS, Git, GitHub

- Designed and developed a fully responsive restaurant website with a modern and intuitive user interface.
- Implemented interactive navigation, smooth scrolling, and animated sections using JavaScript.
- Created a visually appealing menu showcase and responsive contact section.
- Built a mobile-first layout with Tailwind CSS for seamless viewing across all devices.

EDUCATION

Bachelor of Science in Computer Science

Quaid-e-Azam University, Islamabad
2022 - 2026
